

Teach Your Own Course: From the Basic to the Advanced

Fridays 10:00am - Noon

Do you want to improve your teaching skills? Do you anticipate teaching your own course some day? Whether you are a beginning or seasoned TA, first time Associate Instructor, or on the verge of starting your first teaching job, this workshop series is for you! You will work with other participants and the UC Davis TA Consultants to develop your own course--either one you anticipate teaching, or by re-imagining and re-constructing one you already teach. The objectives of the workshop series are to encourage interdisciplinary collaboration, equip you with practical skills and tools that you will implement in the classroom, and help you consider how your teaching aligns with student learning. This workshop is free, and all graduate students and post-docs from all disciplines and backgrounds are invited to attend. Attend five of the six workshops and you will receive a certificate from the UC Davis Center for Excellence in Teaching and Learning (CETL). Visit <http://cetl.ucdavis.edu/tac-winter-2011/> to register your interest, or email tac@ucdavis.edu with any questions. You can also find information at ucdtaconsultants.blogspot.com.
